If Buyer terminates part of the work under this Order, Seller shall continue performance of this Order to the extent not terminated.
- B. The rights and remedies of Buyer provided in this provision shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Order.
- C. If, after a default termination, it is determined that Seller was not in default, or that the default was excusable, the rights and obligations of the Parties shall be the same as if the termination had been issued for the convenience of Buyer.
- D. Seller shall also be deemed in default if any product continues to exhibit defects causing disruption of use and/or repeated periods of downtime, notwithstanding Seller's remedial or maintenance efforts, over a continuous period of three months or more.
- E. Refund of Payments. Seller shall, upon termination by Buyer due to default by Seller, and in addition to any other remedies at law or in equity available to Buyer, return payments it received under this Order for the terminated work. No amount will be allowed for anticipated profit on the terminated work. The amount paid shall be reduced by the reasonable resale or salvage value of any undelivered work or uncompleted work in progress. Seller shall submit to Buyer supporting documentation in sufficient detail to justify any termination payments requested from Buyer. Seller will not be paid for any work performed or costs incurred that could reasonably have been avoided.

16. SUSPENSION OF WORK. ([back to top](#))

Buyer may, by written notice, suspend work under this Order at any time. Upon receipt of such notice, Seller shall immediately comply with its terms and, during the work suspensions, take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the suspension notice. If the suspension of work ordered under this provision results in an increase in the time required for, or in Seller's cost properly allocable to the performance of any part of this Order, Buyer shall make an adjustment in the delivery schedule or Order price or both. Seller shall assert its right to an adjustment no later than 20 days after the work suspension is lifted.

No consent granted by Buyer in response to Seller’s request under this paragraph C shall relieve Seller of its obligations to comply with paragraph B of this provision or the Export Laws and Regulations, nor shall any such consent constitute a waiver of the requirements of paragraph B, nor constitute consent for Seller to violate any requirement of the Export Laws and Regulations.
- D. **Indemnification.** Seller shall indemnify and hold harmless Buyer, Buyer’s parent and affiliates and their respective officers, directors, and employees from and against any and all liabilities, claims, losses and expenses arising out of the failure of Seller, its employees, subcontractors, or agents to comply with the requirements of this provision and breach of the warranty set forth in paragraph A. Seller shall, at its own cost, defend Buyer against such claims, losses, and liabilities, and, it shall pay Buyer’s reasonable attorney fees and expenses, related to carrying out and enforcing the terms of this provision, as those costs are incurred. - E. **Subcontracts.** The substance of this provision shall be incorporated into any lower-tier subcontract entered into by Seller for the performance of any part of the work under this Order.

25. INFORMATION SECURITY. [\(back to top\)](#)

- A. Seller shall implement administrative, physical and technical safeguards to adequately protect Buyer-provided information (“Buyer Information”) in accordance with any law, regulation or contractual obligations applicable to such information. For Buyer Information stored in an electronic database or transmitted electronically, Seller shall comply with any Buyer-specified safeguards set forth in this Order, or if no such safeguards are specified herein, Seller’s safeguards shall be no less rigorous than the Center for Internet Security’s CIS Controls™, found at <https://www.cisecurity.org/controls/>.
- B. If Seller becomes aware of any compromise of Buyer Information (an “Incident”), Seller shall take appropriate immediate actions to investigate and contain the Incident and any associated risks, including notification to Buyer within seventy-two (72) hours after learning of the Incident. As used in this clause, “compromise”

means that information has been exposed to unauthorized access, inadvertent disclosure, known misuse, loss, destruction, or alteration other than as required to perform this Order.

- C. Upon request, Seller shall provide reasonable assurances to Buyer of compliance with the requirements of this provision, and reasonable cooperation in connection with an investigation regarding the nature and scope of any Incident. Any costs incurred by Buyer or Seller in investigating or remedying Incidents shall be borne by Seller.
- D. All Buyer Information shall be encrypted (i) if transmitted externally by Seller via any electronic network, or (ii) during electronic storage if potentially accessible by any electronic network external to Seller or otherwise by non-authorized users.
- E. This provision is intended to set forth minimum information security requirements and does not alter, change or supersede any more stringent information security requirements found in other contractual obligations agreed to between the parties.

If Seller is required to install or supervise the installation of equipment or to perform services at Buyer's or its customer's site, Seller shall inspect the location of the work at Buyer's or its customer's site and be familiar with its condition at the time of award of this Order. In no event shall either Seller's failure to inspect the site prior to the award of this Order, or any circumstance that Seller should reasonably have discovered through such site inspection, constitute a basis for any claim for increased cost or additional time for performance.

27. HAZARDOUS MATERIALS. [\(back to top\)](#)

Seller's obligations and requirements with respect to hazardous materials, including obligations to communicate with Buyer, are defined as follows in this provision. Neither the requirements of this provision, nor any act or failure to act by Buyer, shall relieve Seller of any responsibility or liability for the safety of any person or property, or of any obligation to comply with the applicable Federal, State, and local laws, codes, ordinances, and regulations (including the obtaining of licenses and permits) in connection with hazardous materials.

"*Hazardous material*" means any material defined as hazardous under the latest version of Federal Standard No. 313 as maintained by the General Services Administration (GSA) <https://www.gsa.gov/portal/content/101201>.

A. Safety Data Sheets (SDS):

SDS provided by Seller shall meet requirements of the United States Occupational Safety and Health Administration (OSHA) Hazard Communication Standard and be in the 16 section format of the United Nations Globally Harmonized System of Classification and Labeling of Chemicals (GHS) format as required by 29 CFR 1910.1200(g). **Placement of this Order does not constitute approval. If no SDS was approved prior to Order placement, then no hazardous material may be delivered to the Buyer unless and until the Buyer approves the SDS.**

If at any time during performance of this Order, there is a change in the composition of the products or a revision to Federal Standard No. 313, which renders incomplete or inaccurate the submitted SDS, Seller shall promptly notify the Buyer and resubmit the SDS.

Shipments of hazardous materials or products containing hazardous materials shall have a copy of most recent SDS securely attached to external packaging. If Seller later determines that the SDS secured to the external packaging does not match the products delivered, Seller must immediately notify Buyer.

Seller must ensure that the most current SDS for its product has been provided to Buyer's technical authority and that the SDS provided to Buyer's technical authority matches the subsequent hazardous material

shipping documents. Seller shall notify Buyer and obtain Buyer’s approval prior to shipment if the SDS for a shipment is different than the SDS previously provided for the same product.

Delay to Buyer’s receipt of shipment and any transportation costs due to return of product for reasons of an unapproved, inconsistent or incomplete SDS/MSDS are at Seller’s expense. Repeated non-compliance will result in the Seller being removed from the list of approved suppliers.

B. Prohibited Hazardous Materials:

Except as agreed to in writing by Buyer, or as specified in this Order (e.g., an industry specification or assembly drawing that specifies chromium steel), the hazardous material constituents in Prohibited Hazardous Materials Table shall not be included in or come in direct contact with any products furnished under this order. The products furnished under this Order include all ingredients in such products (e.g., newly formulated coatings) and all materials of construction in such product, including sub-component materials (e.g., batteries, circuit boards), applied coatings, applied primers, lubricants, adhesives, and any other consumables that remain on the delivered product.
