

Each batch of this product received by NNS must be accompanied by a VOC Certification from the manufacturer.

**This VOC certification must include:**

**1) The VOC content**

**2) Signature of personnel preparing certification.**

**3) A statement that says the VOC content was determined by Federal Reference Method 24 or that the "VOC formulation value presented has a consistent and quantitatively known relationship to Method 24 results".**

(i.e. the VOC content determined by Method 24 will theoretically be the same as the VOC content of other batches with the same formula
