Quantity: One (1) copy

Test report(s) showing the physical properties of each heat/lot/batch or item furnished in fulfillment of this order. The test report(s) shall certify that the chemical composition is within the ranges specified in the applicable specification.

A signed positive (i.e. unqualified) certification statement by the testing facility that indicates the test data is in compliance with the specification requirements.

(Example: The results reported on this test report represent the actual attributes of the material furnished and indicate full compliance with all applicable specification requirements.)
