Date: **April 10, 2017**

Title: **WELDING/NDT DRAWING NOTE**

This revision history is provided for convenience and does not alleviate the supplier's responsibility with understanding and complying with the full coded note.

Change from Revision C001– Editorial change to reformat to current standard.

Bolded font indicates changed/added content.

[*Text deleted*] inserted in the document indicates the removal of content.

Those drawings involving welding/brazing must state compliance with applicable fabrication documents (NAVSEA S9074-AR-GIB-010/278, NAVSHIPS 0900-001-7000, PPD 802-6337597, PPD 802-7094539, etc.) and indicate all essential fabrication details including welding or brazing class and any required nondestructive testing and acceptance standards. Weld symbols and nondestructive test symbols and defined areas shall be depicted in accordance with requirements of Appendix K.

When a component contains welded joints which require RT or UT/MT/PT inspection, drawings must show unique joint identification by which the radiographs/test reports correlate to the joints.
