Title: **Packing and Shipping of Yellow Materials**

In addition to any other packaging requirements in this order, the yellow materials being provided on this order shall not be visible during shipment or storage. The material must be covered in an external packaging. Where multiple units of a PO item are shipped in a box or pallet, individual units must be wrapped in an opaque covering. (i.e. each roll in a shipment must be individually wrapped) The external packaging material may be paper, cardboard, or opaque plastic.
