Date: **August 13, 2014**

Title: **Cleanliness Status Tape**

After all capping and sealing is complete, a band or strip of 1 inch wide blue tape with “Steam Plant Clean” over print shall be placed at each cleanliness seal. The “Steam Plant Clean” over print tape shall be applied on the FMED, sealing tape, sealing bag, etc. The “Steam Plant Clean” over print tape shall not be applied directly on the component. This provides visual confirmation that the item is clean per EB Standard Clause 16-16. This custom tape will be furnished to vendors by HII-NNS at no charge. Requests for this tape shall be e-mailed to NPMO@HII-NNS.com.
