Title: **MARKING WELD FILLER MATERIAL**

This revision history is provided for convenience and does not alleviate the supplier's responsibility with understanding and complying with the full coded note.

Change from Revision A– Editorial change to reformat to current standard.

Bolded font indicates changed/added content.

[*Text deleted*] inserted in the document indicates the removal of content.

When marking weld filler metal with the type in accordance with the material specification, mark only one type as specified in the material ordering data. A weld metal item marked with multiple specification/type identities is not acceptable and will be rejected at NNS.
