

Coded Note Number: **N2011**

Revision: **C002**

Date: **January 6, 2016**

Title: **NOISE REQUIREMENTS**

This revision history is provided for convenience and does not alleviate the supplier's responsibility with understanding and complying with the full coded note.

Change from Revision C001 was to reformat coded note text to current standard, update submittal/delivery address, identified Appendix as PO Appendix, and add VIR submittal option.

Bolded font indicates changed/added content.

[Text deleted] inserted in the document indicates the removal of content.

PO Appendix B establishes the structureborne and/or airborne noise requirements which the equipment must meet. In some instances, however, the seller may be technically unable to meet the requirements of **PO** Appendix B. In such cases, if he has not done so already, the seller will report to the buyer within two weeks from the date of the formal order the following:

- A. Curves and data showing comparison between what the seller can meet and the requirements of **PO** Appendix B.
- B. A detailed description of steps to be taken by seller to assure buyer that every effort will be made to meet the requirements of **PO** Appendix B.
 - 1. Equipment will be resiliently mounted during testing.

Submittal of Noise data shall be by Vendor Information Request (VIR), Coded Note Number V1010, in accordance with PO Appendix A.
