

Q1070 PERFORMANCE TEST REPORT

Quantity: As Required

Forward deliverables herein to:

Newport News Shipbuilding
4101 Washington Avenue
Newport News, VA 23607
Attn: E45 Software Coordinator
Bldg. 635-6

The Equipment Performance Test Report shall include all data (numerical and/or graphical) necessary to verify that each component meets the performance criteria specified by this purchase order. The data shall be presented in the format contained in the approved Equipment Performance Test Procedure. The report shall be sent to and approved by NNS prior to shipment of the overhauled component. Testing shall not be accomplished unless the equipment performance test procedure has been approved by NNS.

The equipment performance test report may be submitted to Newport News Shipbuilding for approval via Vendor Information Request (VIR) in accordance with Appendix A. If used, on the VIR the vendor shall indicate that the submittal is intended to satisfy the requirement of this note.
