The "Equipment Test Report" shall include all data (numerical and/or graphical) necessary to verify that each component meets the performance criteria specified by this purchase order. The data shall be presented in the format contained in the approved Equipment Performance Test Procedure (submitted by NNS note Q4050). The report shall be sent to and approved by NNS prior to shipment of the component.

The New Equipment Shop Test Report may be submitted to Newport News Shipbuilding for approval via Vendor Information Request (VIR) in accordance with Appendix A. If used, on the VIR the vendor shall indicate that the submittal is intended to satisfy the requirement of this note.
