

Coded Note Number: **T1260**

Revision: **C002**

Date: **August 9, 2017**

Title: **RUBBER ELASTOMERIC PREFORMED PACKING PACKAGING**

This revision history is provided for convenience and does not alleviate the supplier's responsibility with understanding and complying with the full coded note.

Change from Revision C001 – Editorial change to reformat to current standard.

Bolded font indicates changed/added content.

[Text deleted] inserted in the document indicates the removal of content.

Each piece shall be separately packaged in an envelope consistent with the size of the piece in accordance with section 3.2 of military specification MIL-P-4861.

Note: Envelopes larger than specified by MIL-P-4861 may be used when necessary for larger material items.

Packages shall be opaque and sealed greaseproof/waterproof bags as specified in Method 33 of military standard MIL-STD-2073-1D (formerly Sub-Method IC-1 of military specification MIL-P-116). No preservative is to be added.
