

Coded Note Number: **T1680**

Revision: **C001**

Date: **August 14, 2017**

Title: **ELASTOMETRIC CHANNEL & STRIP REQUIREMENTS**

This revision history is provided for convenience and does not alleviate the supplier's responsibility with understanding and complying with the full coded note.

Change from Revision A – Editorial change to reformat to current standard.

Bolded font indicates changed/added content.

[Text deleted] inserted in the document indicates the removal of content.

Each piece is to be marked in such a manner as not to destroy the usefulness of the marked portion. Mark in accordance with the material specification whenever the specification addresses marking requirements. In addition, the material must also be labeled on the exterior of the opaque package with the information requested by paragraphs (A) thru (I). If the material specification does not address marking requirements, the information requested by paragraphs (A) thru (J) must be labeled on the opaque package.

- A. Newport News part number (when provided)
- B. Manufacturing specification or standard (when applicable)
