

Coded Note Number: **Y2060**

Revision: **C001**

Date: **October 11, 2017**

Title: **STEEL PLATE MEASUREMENTS**

This revision history is provided for convenience and does not alleviate the supplier's responsibility with understanding and complying with the full coded note.

Change from Revision A – Editorial change to reformat to current standard.

Bolded font indicates changed/added content.

[Text deleted] inserted in the document indicates the removal of content.

Quantity: As Required.

The supplier shall submit their method for measuring mill tolerance weight and their recommended sampling quantities for NNS approval 30 days prior to shipment. Once approved, measuring and sampling methods should not be resubmitted unless they have changed.

The actual raw data collected from approved lot sampling shall be submitted quarterly for review.

Submit methods for approval and raw data for review to NNS purchasing department.

It is understood that the supplier shall make every effort to minimize mill tolerance weight without incurring additional cost to NNS.
