Buyer may return the shipment or store early deliveries at Seller's cost.
- C. Whenever it appears Seller will not meet the delivery schedule, Seller shall immediately notify Buyer in writing of the reason and estimated length of the delay. This notice shall not affect the Buyer's rights or remedies. If Seller is unable to meet the required delivery schedules for any reason other than a change directed by Buyer, Buyer shall have the option to terminate the Order or obtain the Products from sources other than Seller and to reduce Seller's Order quantities accordingly at no increase in unit price, without any penalty to Buyer. The rights accorded Buyer pursuant to this paragraph D shall not limit Buyer's rights under the "Termination for Default" provision of this Order.

Products are nonconforming when they are defective in material or workmanship or are otherwise not in conformity with requirements of this Order. Buyer may reject nonconforming supplies with or without disposition instructions.

No amount will be allowed for anticipated profit on the terminated work. The amount paid shall be reduced by the reasonable resale or salvage value of any undelivered work or uncompleted work in progress. Seller shall submit to Buyer supporting documentation in sufficient detail to justify any termination payments requested from Buyer. Seller will not be paid for any work performed or costs incurred that could reasonably have been avoided.

19. SUSPENSION OF WORK. [\(back to top\)](#)

Buyer may, by written notice, suspend work under this Order at any time. Upon receipt of such notice, Seller shall immediately comply with its terms and, during the work suspensions, take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the suspension notice. If the suspension of work ordered under this provision results in an increase in the time required for, or in Seller's cost properly allocable to the performance of any part of this Order, Buyer shall make an adjustment in the delivery schedule or Order price or both. "Hazardous material" means any material defined as hazardous under the latest version of Federal Standard No. 313 as maintained by the General Services Administration (GSA).

A. Safety Data Sheets (SDS):

Seller shall not provide any hazardous materials or products containing hazardous materials unless Buyer has approved the Safety Data Sheet (SDS) for the product. SDS provided by Seller shall meet requirements of the United States Occupational Safety and Health Administration (OSHA) Hazard Communication Standard. **Placement of this Order does not constitute approval. If no SDS was approved prior to Order placement, then no hazardous material may be delivered to the Buyer unless and until the Buyer approves the SDS.**

If at any time during performance of this Order, there is a change in the composition of the products or a revision to Federal Standard No. 313, which renders incomplete or inaccurate the submitted SDS, Seller shall promptly notify the Buyer and resubmit the SDS.

Shipments of hazardous materials or products containing hazardous materials shall have a copy of most recent SDS securely attached to external packaging.

Seller must ensure that the most current SDS for its product has been provided to Buyer's technical authority and that the SDS provided to Buyer's technical authority matches the subsequent hazardous material shipping documents. Seller shall notify Buyer and obtain Buyer's approval prior to shipment if the SDS for a shipment is different than the SDS previously provided for the same product.

Delay to Buyer's receipt of shipment and any transportation costs due to return of product for reasons of an unapproved, inconsistent or incomplete SDS/MSDS are at Seller's expense.

B. Prohibited Hazardous Materials:

This section applies to the extent that a Product does not require an SDS because it is considered an "article" by the OSHA Hazard Communication Standard. Except as agreed to in writing by Buyer, or as specified in this Order, the hazardous material constituents in Prohibited Hazardous Materials Constituents Table shall not be included in or come in direct contact with any products furnished under this Order. This

requirement applies to all ingredients in such Products (e.g., newly formulated coatings) and all materials of construction in such Product, including sub-component materials (e.g., batteries, circuit boards), applied coatings, applied primers, lubricants, adhesives, and any other consumables that remain on the delivered product. A hazardous material constituent that is an impurity, i.e., a trace amount that is not an ingredient and does not contribute to the function or usefulness of the product, is excluded from these requirements.

Barium & Barium Compounds, including Barium Sulfate	Mercury & Mercury Compounds	Methylene Chloride
Brass and Bronze w/ >1% Lead	Ozone Depleting Substances (ODS) Class 1	Arsenic & Arsenic Compounds in Coatings
Boron Trifluoride	Polychlorinated Biphenyls (PCBs)	Benzene in Coatings
Cadmium & Cadmium Compounds	Selenium & Selenium Compounds	Organometallic Compounds in Coatings

- (i) Actual knowledge or process knowledge
- (ii) SDS
- (iii) Technical data sheets
- (iv) Manufacturing data.

Except as specified in this Order, chemical analysis, testing, monitoring or certification is not required to determine whether the product includes or has come in direct contact with the hazardous material constituents identified in the Prohibited Hazardous Materials Table. At Buyer’s request, Seller’s “readily available information” shall be made available to the Buyer’s technical authority.

C. Notifications and Processes for Hazardous Materials:

- (i) If there is a change to the product involving the hazardous material constituents identified in the Prohibited Hazardous Materials Table, including the addition, deletion, or change in the type, concentration, usage, or location of a hazardous material constituent.
- (ii) If Seller becomes aware that the product to be delivered under this Order includes or has come in direct contact with any of the hazardous material constituents identified in the Prohibited Hazardous Materials Table, based on “readily available information.”
- (iii) If the product specifications allow for an alternative that includes a hazardous material constituent identified in the Prohibited Hazardous Materials Table and the Seller desires to select such alternative.

For Orders issued by NNS, the VIR shall include in form [NN9168](#) or similar document a description of the new or changed information, the source of the “readily available information,” and how to physically distinguish between the old and new product (serial numbers, model numbers, physical appearance, etc.).
